No mobile shop may be permitted within 200 metres of an existing shop trading in the same commodities at the time of application.

In the case of the sale of fireworks, or other similar commodity, where legislation controls such sales, and shop owners have previously advised Council of their intention of sale, the 200 metre restriction on sales will be applied.

Additional to the licence fee (currently \$112.50) will be a permit fee for long term occupancy of a public place of \$1,440.00 (both GST inclusive). This sum is the same as is currently charged to the mobile hairdressing business occupying space in the Community Centre car park, Westport.

Time duration of not less than one month occupancy will not be charged for.

Occupancy in excess of one month will be based on a pro rata basis of the above i.e. one month = \$120
