Additional trade waste charges as per schedule 1C of the Trade Waste Bylaw

Fees and charges are set annually by Council resolution and notified in the Annual Plan. The following charging categories apply to non-domestic/trade waste consumers.

A2 Additional trade waste charge

This is an annual charge for recovery of the marginal cost of providing additional trade waste capacity. This charge will be made using the methodology defined in schedule 1D, of Council's Trade Waste Bylaw. This charge will be made on the basis of multiples of domestic dwelling equivalents. The Domestic Dwelling Equivalent (DDE) varies depending on the activity.

To calculate the total trade waste cost charging groups based on DDE are as follows:

Charging group Domestic	Dwelling Equivalent (DDE) Band	Trade waste fee
A	<2 DDE	\$0
B	2 - <5 DDE	\$105.00
C	5 - <10 DDE	\$210.00

A5 Compliance or extraordinary application processing costs

Time and disbursement costs, as incurred on at a rate identified in the Long-Term Plan. Extraordinary application processing or compliance costs will subsequently apply.

Schedule 1D of the Trade Waste Bylaw - methodology for calculating additional trade waste charges. The following methodology will be used to apply the fees and charges set out in schedule.

1C. This methodology is based on principles outline in the Introduction to the bylaw.

1. Council will prepare a schedule of non-domestic consumers from their rating database.
2. Using best available information and local knowledge, Council will assess the business function or activity and estimate the relevant local capacity of usage criteria of each non-domestic consumer on the schedule.
3. From load factors for the generic business functions or activities, an average daily flow will be estimated. In special cases, organic load may be considered, if relevant to that activity or if it may have an implication to the sewerage system.
4. From the estimate of daily flows (or organic load in special cases), the ratio of flow estimated from the activity (or organic load) to that expected from a domestic dwelling and as identified will be calculated.
5. As the assessment is not necessarily highly accurate, the calculated ratio will be averaged into one of the following groups and the appropriate charge concluded.

Ratio	Group	Charge
1 - <2	A	1 - no additional charges
2 - <5	B	3 - additional trade waste charges
5 - <10	C	7 - additional trade waste charges
10 - <20	D	15 - additional trade waste charges
20 - 30	E	25 - additional trade waste charges
>30	F	Ratio x additional trade waste charges
>70	G	Formal trade waste consent application req.

6. The assessment will be forwarded to the applicant as a provisional trade waste consent, with procedures defined in Section 3.2 of the bylaw.
7. For application assessed or known to have a maximum flow greater than 50m³/day, a formal trade waste consent application shall be required to be submitted by the consumer.

For further information regarding the Trade Waste Bylaw contact the Infrastructure Services Department.

Regulatory Services - Resource Management/Planning

Basis of charges

The Buller District Council has adopted a user pays policy for all resource consent applications and functions that the Council carries out under the Resource Management Act 1991. The purpose of the charges is to recover the actual and reasonable costs incurred by the Council.

In setting these charges, the Council has had regard to the criteria set down in Section 36 of the Resource Management Act (RMA).

Timing of payments

Most of the charges and amounts specified in this schedule (unless otherwise specified) are payable in advance of any action being undertaken by the Council. Pursuant to Section 36(7) of the RMA, the Council does not need to perform the action to which the charge relates until the charge has been paid in full.

Deposits

Deposits are initial charges payable at the time an application is submitted to Council for processing. Notwithstanding that a deposit may be paid, the Council will commence processing the application only when it is satisfied that the information received with the application is adequate.

Since resource consent applications can vary significantly in their content and nature, the Council cannot set a fixed charge that would be fair and reasonable in every case.

The deposit shown in the schedule is the minimum deposit for that particular application category. A deposit higher than the minimum could be required and this would be dependent on the nature and scale of each specific application.

Additional deposits are required in relation to applications that require notification (limited or public), pre-hearing meetings and hearings.

Final costs

When the processing of an application has been completed and a decision has been made, Council will then finalise the cost of processing the application.

a. Remission of charges

Pursuant to Section 36(5) of the RMA, the Council, at its discretion may remit the whole or any part of the charges listed.

b. Additional charges

Additional charges may be required under Section 36(3) of the RMA where the deposit is inadequate to cover costs, to enable Council to recover its actual and reasonable costs relating to any particular application.

c. Discount on the charges

Pursuant to Section 36AA of the RMA, the Council will give discounts on administrative charges to applicants whose resource consents have exceeded the prescribed timeframes where the responsibility for the failure rests solely with Council. The refund will be in accordance with the Resource Management (discount on administrative charges) Regulations 2010.

Policy

As a basis for additional costs under Section 36(3) of the RMA 1991, Council will assess such costs on the following basis:

- Staff costs will be charged out at their hourly charge out rates as determined by the Department Manager from time to time, in consultation with Finance.
- Vehicle mileage rates will be charged at \$2.00 per kilometre plus GST for external charging. Travel for consultants will be charged at cost.
- Staff travel time for site visits will be capped at one hour, plus applicable mileage.
- Advertising, materials and laboratory costs will be charged at cost.
- Costs for Hearing Commissioners and their disbursements will be recovered at actual rates.
- Legal charges/peer reviews will be recovered at actual rates.
- Costs for contractors and consultants will be recovered at actual rates.
- An additional charge of 10% will also be applied to cover Council's costs in relation to outsourced consent applications.

List of charges

A charge shall be made for each type of application or action listed. All charges unless otherwise specified in this table are a deposit and are inclusive of GST. All references are to the Resource Management Act 1991 and any subsequent amendments, unless specified otherwise.

Building Activity

Building fees and charges are calculated depending on the type of application, costs of the work involved, levies, how long it takes to process and how many inspections are required. All housing / residential, commercial, major alterations and Certificate of Acceptance require a deposit to be paid on application.

Building consents will not be issued until processing has concluded, fees and charges are calculated, and settlement of any additional fees and charges have been paid.

An estimated number of inspections will be charged for at the outset, with any additional inspections charged for at the end of the project / prior to issuing Code Compliance Certificate. Refunds may be available for any unused inspections; these are also calculated at the time of project completion.

Building Research (BRANZ), Ministry of Business Innovation and employment (MBIE) levies and insurance levies apply for building work over a certain value.

Where any building charge is inadequate to enable the recovery of the actual and reasonable costs, a further charge may be payable.

The owner is responsible for all fees and charges. If an application is withdrawn at any stage, any fees and charges incurred up to that point must still be paid. Any functions or services that are provided but are not specifically detailed in this schedule will be charged at the relevant officer charge-out rate.
