

GUIDE TO RESOURCE CONSENT FEES

JULY 2023-JUNE 2024

The figures below are based on actual charges for resource consents applied for and processed to a decision for the period 01/07/23-30/06/24. They are intended to provide a **general guide only** to the cost of processing resource consent applications. Note that some fees and charges have increased as of 01/07/24.

The figures **do not** include the costs of monitoring the consent, meeting consent conditions or any other additional costs (ie financial contributions, bonds, surveyor's and lawyer's fees etc).

A deposit is required at the time of submitting your resource consent application. Resource consents are processed on a **full cost recovery** basis. The actual cost of your resource consent will depend on the amount of time it takes to process it. You can reduce the processing time by ensuring you complete all forms thoroughly, providing Council with all of the required information and obtaining 'Affected Party Approval' from all parties you think will be affected by your application, prior to submitting your application to Council.

Less processing time = less cost.
